

Direct Services Grant Questions (5-12-17)

1) Is it possible to ask for a lower grant amount, such as \$10,000 a year or even less?

2) If we cannot ask for a lower amount, do you know of any organizations that might be interested in partnering with us to share a grant application, so each organization would receive less and the services would be split? We are envisioning a program to provide American Sign language Instruction to any kids 0 to 5, with a priority for the deaf and hard of hearing children in that age range.
